

POLYAC® BDM-M

FLEXIBLE, PUMA BASED, LIQUID, VERY FAST CURING, MANUALLY APPLIED, ELASTOMERIC WATERPROOFING MEMBRANE

BENEFITS

- High reactivity
- Fast curing
- Sustainable
- Liquid and easy to apply
- Applicable at low temperature
- Optimal viscosity
- Crack bridging
- Optimized polymerization under difficult conditions
- High chemical resistance
- Resistant to thawing salt

FIELD OF APPLICATION

POLYAC® BDM-M can be used as a waterproofing membrane or as a wear layer.

- Roofs
- Terraces
- Balconies
- Galleries
- Parking roofs
- Bridges
