RESIPLAST NV - MEMO: Circulation Plan 2020 - Site Wommelgem.

Dear customer,

Resiplast continues to grow and invest further in the future. This results in an increase in deliveries and collections of goods on our site. In order for your and our employees to perform their jobs safely, we have decided to split this flow of goods into 2 zones within our site and we have developed a new circulation plan.

From now on all **"COLLECTIONS of goods"** must be made from **GATE B**. That is the current, usual zone.

With a possible combination of **"Collection and Delivery"** you will also have to pass by **GATE A** for deliveries.

For your comfort, we have already renewed the signage on the site. If you have any questions about this, you can always contact your Resiplast contact person.

We continue to improve our professional and positive cooperation.

With best regards

A handwritten signature in black ink, appearing to read 'Philippe Carels', written over a horizontal line.
